Chaibasa Engineering College, Jharkhand, Noida

Sub: Welcoming you to the family of Virtual Lab at IIT Kanpur

We sincerely thank you for joining the family of Virtual Lab at IIT Kanpur. Now you are a 'part' of the MHRD's initiative to expose the concept of virtual laboratories to the faculty members and students of various engineering colleges and institutes.

Please find the registration packet of becoming a nodal center. **The registration packet** with all information of open source laboratories. I highly encourage your teachers and students to 'map' the experiments of various laboratories, and start including them in class-room teaching as a demonstration and proof of concept.

I urge you to take the second step of organizing/hosting Virtual-Lab workshop, through which your teachers and faculty members can be trained, and you become self-sufficient in taking it forward. Later, then your college can become leader in hosting workshops of its own, and cater to needs of other colleges/schools that need such an exposure and experience.

In case of any difficulty or queries, please do not hesitate to contact me (via email or phone), and we will make things smoother for you.

With best regards,

(Dhananjay Umrao)
